NAME: _____
(Please Print) (Last) (First) (MI) School ID #

As class positions become available (based on the Wait List), students will be offered enrollment and instructed to register. Once registration is completed, Part 2 - Time-Sensitive Clinical Requirements must be completed **within ONE MONTH** of notification to register.

AFTER registering for the course, the student must complete the following steps:

- E. Physical Examination** must be within 6-months of class start date: Must use Shasta College Health Sciences Physical Examination form.
- F. TB Screening**
 - The second TB screening test of the Two-Step Process must be completed within 6-months of class start date.
 - Students with known positive PPD must complete TB Questionnaire-Confidential form, submit documentation of a chest x-ray within the last two years and receive clearance from their health care provider.
- G. Drug Screening**—Directions will be provided by the Health Sciences department. Drug screen cost is \$25 dollars *paid by student* at designated lab in Redding. Only cash payments are accepted.
- H. Criminal Background Screening**

When requirements A-G above are on file, the student must come to the Health Sciences office to obtain the Live Scan form. All class participants are required to complete the Live Scan (fingerprinting) process at the Shasta County Sherriff's office in Redding. The Sherriff's office submits electronic fingerprints directly to the state Department of Justice for evaluation. *The cost of Live Scan is paid by the college in accordance with state regulation.*

The student will be given the **Student Data sheet** and the **Initial Application for CNA certification** to complete when they come to pick up the Live Scan form. These forms will be completed on site and left at the Health Sciences office.

Make a personal copy of all records prior to submission to Health Sciences office.
