

Welcome Back Day Friday, August 16, 2019

Overview of Day: The day will be dedicated to reflecting on the student experience from registration to graduation here at Shasta College. This will be an interactive day starting with what we've gathered about the student experience from across the campus. We'll hear from students about their path to a degree or transfer; faculty and counselors on existing pathways here at the college, and close with facilitated breakouts on how we can improve the student experience. Prepare to share ideas and best practices for making the student experience even better here at Shasta College.
