Providing Feedback - Strategies & Best Practices
Presenter: Kelly Nickel, Room 633
The quality of the feedback you give to your students can impact their ability to close the gap between where they are and where they need to be in their learning. In this interactive and fun workshop, you will gain an appreciation for the wide-range of communication and situational variables that can positively or negatively impact the effectiveness of the feedback you give to your students. You will walk away motivated to create a resource of best practices that can guide you through the semester as you strategically implement your feedback choices.

2:30 p.m. – 3:30 p.m.  1-Hour Sessions
I’ve Called 911, Now What Do I Do?
Presenter: Debbie Goodman, Room 812
A student collapses in your classroom or office from a known medical condition and had told you the first day of class to call 911 should this happen. What do you do? Who do you call? What do you do after you’ve called 911? This presentation will explain the campus process for accessing assistance during physical and mental health emergencies. Guidelines will also be shared to help the college employee manage common emergencies while waiting for assistance. Disclaimer: This is not first-aid training.

Using Rubrics Across the Curriculum
Presenters: Susannah Fulton, Tom Martin, Frank Negro, and Bethany Scharrschmidt, Room 811
A panel of faculty will present various rubrics that they use for assessing student discussion, writing, or other classwork. Come join the discussion and feel free to share any rubrics that you have found useful!
