FLEX DAY SPRING 2013

JANUARY 14, 2013

“MEETING THE CHALLENGE”

Brought to you by
The “Invest in Our People” Committee

Laura Cyphers Benson, Co-chair
Roger Gerard, Co-chair
Denise Axtell Justin Babb
Candace Byrne Teresa Doyle
Debbie Goodman Janet Krewson
Shelly Presnell Kathleen Tibbals
Diane Yorks

Afternoon Workshops

1:15 p.m. – 3:30 p.m. 2-Hour Sessions

Community Engagement

Presenter: Heather Wylie

Center Stage

Shasta College has renewed its commitment to supporting civic and community engagement campus wide. Come find out how to incorporate a broad array of civic and community engagement activities into your existing courses to support student learning outcomes, student retention and success. Shasta College faculty will be on hand to share their experiences with civic and community engagement and tips for thinking about your own courses.

Worksite Learning Online

Presenters: Roger Gerard and Michael Sumption

Room 2217

Worksite Learning: Shasta College has placed the administration of Worksite Learning online, eliminating the paperwork of the past. See how the student, instructor, employer, Dean, and HR will be assigned specific access rights to the new site. *This is a refresher workshop on the new application plus a review of new features and guides.*

1:15 p.m. – 2:15 p.m. 1-Hour Sessions

North / Far North Regional Consortium

Presenters: Eva Jimenez and Tessa Miley

Room 804

The North/Far North Regional Consortium (N/FNRC) is one of seven consortiums established by the Chancellor's Office of the California Community Colleges through competitive grants. Regional Consortiums are funded to integrate and coordinate economic development and vocational education programs and services. As such, it provides an avenue for coordinating regional programs, increasing collaborative responses to state and regional needs, and serving as a primary link between local colleges, Economic & Workforce Development Program Centers and Initiatives, and the California Community College Chancellor's Office.

This workshop will introduce you to the responsibility of the regional consortia, as well as the role the consortia plays in Program Approvals. Learn about how you can become an active member in the consortia and what resources they can provide for your CTE Program!

Moodle II StudyMate

Presenters: Scott Gordon and Ken Cooper

Room 209

Tired of having problems with your games in Moodle? Ready to have some fun with new and improved games? The answer is here: StudyMate. With StudyMate it's out with the old games, in with the new. StudyMate helps students "master the basics" of course material through learning activities, self-assessments, and games. Activities – such as flash cards, crosswords and quizzes engage students with course content in an individualized way, increasing student interaction and promoting student learning. Having someone to study with makes the task easier, and if you sign up for this presentation your students will have a StudyMate.

Disaster Resistant

Presenters: Craig Carmena and Dave Freeman

Room 802

This one hour course can make a difference in how you will successfully handle an emergency here at Shasta College utilizing our "New Emergency Action Guide."

The "Beat the President" Pedometer Challenge

Presenter: Sherrie Brooks and Bethany Schaarschmidt

Room 806

The "Beat the President" Pedometer Challenge is a 6 week challenge, where participants agree to wear a pedometer and hopefully start a new healthy habit. Of course, ours has a bit of a competitive twist to it, and our President, Joe Wyse, has agreed to play along. In this presentation, you will learn how walking can improve your health, hear the rules of the competition, sign out a pedometer, get some useful resources, a tracking sheet, and sign up for a weekly email. This competition is open to ALL Shasta College employees, so come find out how you can "Beat the President"!

2:30 p.m. – 3:30 p.m. 1-Hour Sessions

Virtual Instruction

Presenter: Frank Whiting

Room 2217

Virtualization technology, integration of multiple social media, digital texts, cloud based learning management systems and advanced virtual worlds, promise both an enrichment of the learning experience and a shift in the content and presentation of the classroom experience. The learning process can become mainly interactive, rather than mainly reactive. This presentation surveys the enabling changes in learning and computer interactive technology in the present and near term. It shows how these tools are being applied to real situations such as the huge college districts in Alaska and how they can be applied to our own classrooms.

Link to the Library

Presenter: Cheryl Cruse and Carolyn Salus-Singh

Room 243

Have you considered complementing textbooks and coursepacks with newspaper, journal articles, eBooks, and streaming media from the library's 24/7 collection? In this hands-on workshop, librarians will assist you in finding and linking to these resources from Library Course Reserves, custom online library resource guides, your Moodle class, or a combination of the three. Come see what we can do for your students! Tour the facilities and learn how we can work together to increase student success.

Little Software Gems "Back by popular demand"

Presenter: Cristina Berisso

Room 811

Shareware software to aid your teaching: print Shasta College roster with specifiable lay-out, more efficiently collect class attendance in less than a minute; produce bar-graphs of grade distributions; make color JPG's of your semester's class schedule; get audio notification of expired time limits; check veracity of students' complaints about inaccessible website; offer your class a talking scientific calculator. Try these gems and brain-storm comments and suggestions to improve them.

Stalking – National Stalking Awareness Month

Presenter: Craig Carmena

Room 802

Campus Safety and Health and Wellness Services are presenting a one hour workshop on Stalking.

January is National Stalking Awareness Month!

Why take this workshop?

- One out of every 12 women and one out of every 45 men have been stalked at some time in their lives
- College women appear to experience stalking with an ex-boyfriend at a very high rate
- Stalking cases are a serious and very common problem on college campuses throughout the U.S.
- Information from this course may assist you in taking preventative measures and recognizing the signs of stalking to protect students and you

What this course will provide:

- Concerns and the process of reporting for the stalked student
- Concerns and the process of reporting for the stalked faculty/employee
- How the internal discipline process works and when law enforcement gets involved
- Steps to take as a staff member to recognize the signs and prevent stalking

TracDat Training

Presenter: Marc Beam

Room 2209

This hands-on workshop is a training session designed to support faculty entering SLOs into TracDat. There will be a short demonstration and overview of the software and its role for integrated planning, area plans, and program review. Faculty that bring their results can log into the system and enter SLO results at this session.

**It is difficult to say what is impossible
for the dream of yesterday, is the hope
of today, and the reality of
tomorrow. ~ Robert H. Goddard**
