Meeting called to order 3:05 pm

Minutes of February 3, 2010 approved.[M/S/A Orr/Schaarschmidt]

Comment: Brian Spillane appreciated the notes about . Sharon Kennedy hopes that this will encourage Shasta College’s return to the CVC.

**Reports and Updates.**

- **Course Management System**
  - *Moodle*. Doug Meline will meet with reps to learn more about Moodle Rooms and its compatibility with Datatel.
  - Doug continues to recommend dual platform licensing of Moodle Rooms prior to the expiration of Angel to ease the transition. If pricing is favorable, Doug and Cindy would like to support a few Moodle users on a pilot installation by Fall 2010 and Spring 2011, perhaps 5 faculty (10 courses). Full implementation should be in place for Summer 2011.
    - Pricing structure is variable, dependent on number of classes, instructors, and students enrolled
    - It is hoped that the Joule and Accucampus applications of Moodle Rooms will integrate with Datatel
    - The Moodle Rooms reps are testing importation of Angel 7.3.
    - Moodle’s Accucampus might have a significant impact on the College’s attempt to integrate disparate learning management systems and administrative systems.
      - Pedagogy training will not be offered in Summer 2010.
      - Shasta College is seeking Federal grants that are available to rural institutions to support connectivity.
  - **Commission on Substantive Change has accepted proposal and addendum in response to queries of December 2007.**
    - Addendum includes identification of the challenges presented to the rapidly growing online program.
Tom met with Dean’s Council. Reps will meet with their divisions to discuss delivery of online classes.
  - Sharon Kennedy recommends considering course sequencing, rather than limiting the number of courses.

Meeting adjourned 4:17 pm.

Next meeting: Wednesday April 7, 2010, 3 pm

Respectfully submitted March 3, 2010, Carolyn Salus-Singh
