

## I completed my General Application, but the scholarship I am eligible to apply to is not listed on my “Recommended” page of scholarships. What do I do?

Check your “Profile Information”. This is information imported from the Shasta College data system. If any of the information is incorrect, you will not be matched to the correct scholarship opportunities.

The following are examples of information that may be incorrect in your “Profile Information”:

- ✓ You do not have an active major on file with Admissions and Records. (Our “Form S” posted to “My Shasta” has the list of current active majors, for your reference).
- ✓ You have a major on file that you are no longer pursuing.
- ✓ Contact the Scholarship Processor to find out which department on campus you need to contact to update your “Profile Information”.
